Background:

The California Bay Delta Program is a cooperative effort among State and federal agencies and the public to ensure a healthy ecosystem, reliable water supplies, good quality water, and stable levees in California's Bay-Delta system. The Water Use Efficiency (WUE) Program is one of several Program elements CALFED is implementing through an integrated approach. The August 2000 CALFED Record of Decision called for the creation of a WUE Subcommittee to advise State and federal agencies on structure and implementation of assistance programs, and to coordinate federal, State, regional and local efforts for maximum effectiveness.

Purpose of Meeting:

The May 12 meeting – the eighth of the WUE Subcommittee – will offer an opportunity to: 1) discuss the WUE Multi-Year Program plan; 2) discuss the California Bay Delta Program Long-Term Finance Plan; and 3) provide updates on WUE Program actions and related activities. Members of the public will be given an opportunity to ask questions and provide comments. The meeting agenda is provided below.
